Editor’s Note

Since 1995, the China Council for the Promotion of International Trade (CCPIT) has compiled and printed the Chinese-English bilingual annual report of Fairs and Exhibitions in China (hereinafter referred to as “the book”) every year, and published information about major economic and trade exhibitions to be held in China that year, providing a significant reference for enterprises to participate in the exhibitions or expos held in China. The book has been welcomed by embassies and consulates in China, trade associations as well as enterprises of each country throughout the years.

The Fairs and Exhibitions in China 2023 is coordinated by CCPIT Department of Exhibition Management (Office of International Exhibitions Bureau and World Expo Affairs). CCPIT Information Center (China Trade Promotion Information Technology Co., Ltd.) is responsible for its compilation.

To better understand and use the book, please follow the details below.

I. Scope of Data
The terms of fairs, exhibitions and expos in this book are limited to economic and trade ones, excluding public performances and events related to culture exchange, recruitment, local trade fairs of B2C or C2C and others.

Fairs and Exhibitions in China 2023 has collected information on over 1370 valid economic and trade projects, which will take place in 105 cities / regions across 23 provinces, 5 autonomous regions and 4 municipalities as well as Hong Kong and Macao Special Administrative Regions of China in 2023 (the deadline for information collection is 15th December 2022). Project data include the name, time, venue, host & organizer, display content and contact information of the exhibitions. Readers can search for information by the host city / region or by the industry.

II. Source of Data
The data in this book mainly comes from CCPIT local sub-councils and industrial sub-councils, exhibition hosts and organizers, exhibition halls and official media (online and printed media).

III. Limitations and Accuracy
Due to various reasons, some fairs and exhibitions in 2023 might be changed, restarted or canceled. Although the Editorial Board has cross-checked the exhibition information through various means, there may still be changes of information such as date and venue, and even the alteration, cancellation or addition of some exhibition projects.

Therefore, users of the book are suggested to directly contact the host and organizer of an exhibition to verify relevant information, and take responsibility for any consequences that may occur. The Editorial Board will no longer make further explanations or updates after the publication of this book.

IV. Download and Search
The book is available for both printed and electronic versions, and is also open to online searching.

The download webpage will be launched on exhibition.ccpit.org, www.tradeinvest.cn. Readers can also go to the CCPIT official website (www.ccpit.org) and download from the “publications” section.

For further inquiries, please call the CCPIT Information Center (China Trade Promotion Information Technology Co., Ltd.). at +86-10-82217963.
